No exhaust from a smoking room shall be located within fifteen (15) feet of any entrance, exit or air intake. If smoking is to be permitted in any space exempted in subsection H of this section or in a smoking room pursuant to subsection I of this section, such smoking space must either occupy the entire enclosed indoor space or, if it shares the enclosed space with any nonsmoking areas, the smoking space shall be fully enclosed, exhausted directly to the outside with no air from the smoking space circulated to any nonsmoking area, and under negative air pressure so that no smoke can drift or circulate into a nonsmoking area when a door to an adjacent nonsmoking area is
opened. Air from a smoking room shall not be exhausted within fifteen (15) feet of any entrance, exit or air intake.

H. The Smoking in Public Places and Indoor Workplaces Act shall not prohibit smoking in:

10. Any outdoor seating area of a restaurant; provided, smoking shall not be allowed within fifteen (15) feet of any exterior public doorway or any air intake of a restaurant; and

11. Medical research or treatment centers, if smoking is integral to the research or treatment.

I. Beginning March 1, 2006, restaurants shall be totally nonsmoking or may provide nonsmoking areas and designated smoking rooms. Food and beverage may be served in such designated smoking rooms which shall be in a
location which is fully enclosed, directly exhausted to the outside, under negative air pressure so smoke cannot escape when a door is opened, and no air is recirculated to nonsmoking areas of the building. No exhaust from such room shall be located within twenty-five (25) feet of any entrance, exit or air intake. Such room shall be subject to verification for compliance with the provisions of this subsection by the State Department of Health.

SECTION 3. This act shall become effective November 1, 2019.
