STATE OF OKLAHOMA

2nd Session of the 57th Legislature (2020)

HOUSE BILL 2792

By: Hardin (David)

AS INTRODUCED

An Act relating to agriculture; amending 2 O.S. 2011, Section 10-9.7, as last amended by Section 5, Chapter 313, O.S.L. 2015 (2 O.S. Supp. 2019, Section 10-9.7), which relates to the Oklahoma Registered Poultry Feeding Operations Act; requiring Nutrient Management Plans to be prepared by certain persons; allowing certain plan corrections or modifications; providing plan renewal period; providing exception to renewals; requiring Oklahoma Department of Agriculture, Food, and Forestry to submit certain annual report; and declaring an emergency.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

SECTION 1. AMENDATORY 2 O.S. 2011, Section 10-9.7, as last amended by Section 5, Chapter 313, O.S.L. 2015 (2 O.S. Supp. 2019, Section 10-9.7), is amended to read as follows:

Section 10-9.7 A. All poultry feeding operations shall utilize Best Management Practices and shall meet the conditions and requirements established by subsection B of this section and by rules promulgated by the State Board of Agriculture pursuant to the Oklahoma Registered Poultry Feeding Operations Act.
B. The criteria for Best Management Practices shall be promulgated by rules by the Board and shall include, but not be limited to, the following:

1. There shall be no discharge of poultry waste to waters of the state;

2. Stored poultry waste shall be isolated from outside surface drainage by covers, ditches, dikes, berms, terraces or other such structures;

3. No waters of the state shall come into direct contact with the poultry confined on the poultry feeding operation;

4. Poultry waste handling, treatment, management, and removal shall:
   a. not create an environmental or a public health hazard,
   b. not result in the contamination of waters of the state, and
   c. conform to such other handling, treatment and management and removal requirements deemed necessary by the Oklahoma Department of Agriculture, Food, and Forestry to implement the Oklahoma Registered Poultry Feeding Operations Act and rules promulgated pursuant thereto.

The rules promulgated by the Board pursuant to this section shall provide for exceptions to the storage requirements for poultry waste in emergency situations. Such exceptions shall include but
not be limited to allowing a contract poultry grower to take such
actions as are necessary to meet requirements imposed on a grower by
an integrator. In such situations growers shall be required to take
all actions feasible to prevent pollution from stored poultry waste.

C. Every poultry feeding operation shall have a Nutrient
Management Plan which shall include at a minimum:

1. A description of poultry waste handling procedures and
availability of equipment and type of equipment to be used;

2. The calculations and assumptions used for determining land-
application rates if land application is applicable;

3. All nutrient analysis data, for soil and poultry waste
testing;

4. Legal description of lands to be used by an operation for
land application;

5. Land-application rates of poultry waste shall be based on
the available nitrogen and phosphorous content of the poultry waste
and shall provide controls for runoff and erosion as appropriate for
site conditions;

6. The procedures documented in the Nutrient Management Plan
shall ensure that the handling and utilization of poultry waste
complies with the following requirements:

   a. adequate poultry waste storage shall be provided
      consistent with rules promulgated by the Oklahoma
Department of Agriculture, Food, and Forestry pursuant to subsection B of this section,

b. poultry waste shall not be applied to land when the ground is saturated or during rainfall events. Poultry waste shall not be applied to land when the ground is frozen except in conformance with the Nutrient Management Plan,

c. poultry waste shall only be applied to suitable land at appropriate times and rates. Discharge or runoff of waste from the application site is prohibited. Timing and rate of applications shall be based on assimilation capacity of the soil profile, assuming usual nutrient losses, expected precipitation, and soil conditions, and

d. poultry waste application shall be prohibited on land subject to excessive erosion;

7. Records shall be maintained of all poultry wastes applied on land owned or controlled by the operator, and sold or given to other persons:

a. if the poultry waste is sold or given to other persons for land application or other use, the poultry feeding operation shall maintain a log of: date of removal from the poultry feeding operation; name of recipient the poultry waste is sold or given to; and amount in
wet tons, dry tons or cubic yards of poultry waste 
removed from the poultry feeding operation, and 
b. the poultry feeding operation shall make available to 
the recipient any nutrient sample analysis from that 
year;

8. Any analysis required by the provisions of the Oklahoma 
Registered Poultry Feeding Operations Act or rules promulgated 
thereto shall be performed by a qualified environmental testing 
laboratory certified by the Department of Environmental Quality and 
approved by the Oklahoma Department of Agriculture, Food, and 
Forestry; and

9. Such other information deemed necessary by the Oklahoma 
Department of Agriculture, Food, and Forestry to administer the 
provisions of the Oklahoma Registered Poultry Feeding Operations Act 
and rules promulgated pursuant thereto.

D. The original or renewal Nutrient Management Plans, as 
required in subsection E of this section, submitted after the 
effective date of this act shall be prepared by the producer or 
designee of the producer. After the original or renewal plan is 
submitted to the Oklahoma Department of Agriculture, Food, and 
Forestry may promulgate rules providing voluntary fees charged to 
registered for review and approval and the Department determines 
that a submitted plan needs or requires any corrections or 
modifications, the Department shall make any and all needed
corrections to approve the plan and notify the poultry feeding
operations for the development and writing of Nutrient Management
Plans; operation of the modifications and approve the plan.

E. Nutrient Management Plans shall be renewed and an updated
plan shall be submitted to the Oklahoma Department of Agriculture,
Food, and Forestry through the Department's website or a printable
online application form designed by the Department every six (6)
years from the date the Nutrient Management Plan was submitted;
provided, that a one-page amendment to the most recently submitted
plan may be submitted in lieu of a renewal plan through the
Department's website or a printable online application form designed
by the Department. Poultry feeding operations submitting an
amendment pursuant to this subsection shall still be subject to the
soil and poultry waste testing requirements under subsections F and
G of this section. The Department shall review the amendment and
make any necessary changes and notify the poultry producer. The
amendment shall contain the following statements:

1. No changes in the waste utilization standards have occurred
since the most recently submitted Nutrient Management Plan;

2. There has been no change to the number of poultry housed
since the most recently submitted Nutrient Management Plan;

3. There has been no expansion or reduction in the poultry
feeding operation since the most recently submitted Nutrient
Management Plan; and
4. The entirety of the poultry waste is:
   a. removed off site as provided in the poultry feeding operation's annual report, as required by subsection J of this section, and will continue to be removed off site for the next six (6) years, or
   b. land-applied and will continue to be land-applied for the next six (6) years.

F. Every poultry feeding operation located in a non-nutrient-limited watershed and non-nutrient-vulnerable groundwaters shall perform soil testing on each land-application area and poultry waste testing at least once every three (3) years to determine:
   1. Soil pH and plant-available nutrients including, at a minimum, nitrogen, phosphorous and potassium;
   2. Poultry waste nutrient concentrations and moisture; and
   3. Application rate based upon current United States Department of Agriculture Natural Resources Conservation Service Waste Utilization Standards, unless the Oklahoma Department of Agriculture, Food, and Forestry approves other standards.

G. Every poultry feeding operation located in a nutrient-limited watershed and nutrient-vulnerable groundwater shall perform an annual soil test on each land-application area prior to the first application of the calendar year. Poultry waste testing shall be performed annually prior to the first application of the calendar year.
year. Soil and poultry waste testing shall be performed to
determine:

1. Soil pH and plant-available nutrients including at least
nitrogen, phosphorous and potassium;

2. Poultry waste nutrient concentrations and moisture; and

3. Application rate based upon current United States Department
of Agriculture Natural Resources Conservation Service Waste
Utilization Standards, unless the Oklahoma Department of
Agriculture, Food, and Forestry approves other standards.

G. 1. Soil and poultry waste analysis data shall be
retained by the poultry feeding operation for a minimum of six (6)
years.

2. All soil and poultry waste analysis data shall be dated
prior to land application.

H. 1. Poultry feeding operations shall develop a plan for
the disposal of carcasses associated with normal mortality.

2. In the event there is an outbreak of a major disease or
other emergency resulting in deaths significantly higher than normal
mortality rates, the Oklahoma Department of Agriculture, Food, and
Forestry may approve, in writing, an alternate method of disposal of
carcasses or the storage of poultry waste during the emergency
period.

I. Every poultry feeding operation shall file by September 1
of each year an annual report with the Department regarding all
poultry waste removed from or land-applied by the facility for the period from July 1 of the previous year through June 30 of that year. The report shall contain the following information:

1. The date and amount of poultry waste removed from or land-applied at the facility;

2. The type of poultry waste removed or land-applied, whether a cake out, full clean out, in-house windrow or compost, poultry waste stack shed, or other type;

3. The county and, if applicable, the name of the Nutrient Limited Watershed where the poultry waste was produced; and

4. The location where the poultry waste is removed to:
   a. if land-applied on site, provide the following:
      (1) the date of the land application,
      (2) the total amount of poultry waste land-applied in wet tons, dry tons, or cubic yards,
      (3) the name, mailing address, and telephone number of the poultry waste applicator, and
      (4) the number of acres under the control of the poultry feeding operation for land application of poultry waste, or
   b. if removed off site, provide the following:
      (1) the date of the removal off site,
(2) the amount of poultry waste removed in wet tons, dry tons, or cubic yards,

(3) the name, mailing address, and telephone number of the person the poultry waste is sold or transferred to,

(4) the name, mailing address, telephone number, and poultry waste applicator license number of the poultry waste applicator, if known, and

(5) the name, mailing address, and telephone number of the hauler of the poultry waste.

K. The Oklahoma Department of Agriculture, Food, and Forestry shall submit by March 1 of each year an annual report to the Legislature and post to the Department's website regarding all poultry waste removed or land-applied by all poultry feeding operations within this state for the period from July 1 of the previous year through June 30 of that year. The annual report shall contain the following information:

1. The amount of poultry waste land-applied at all operations;

2. The amount of poultry waste exported from each operation;

3. The amount of poultry waste exported from an operation to a different county in this state; and

4. The amount of poultry waste exported from an operation to a different state.
SECTION 2. It being immediately necessary for the preservation of the public peace, health or safety, an emergency is hereby declared to exist, by reason whereof this act shall take effect and be in full force from and after its passage and approval.
