2nd Session of the 57th Legislature

Bill No.:	SB 1947
Version:	ENGR
Request Number:	
Author:	Speaker McCall
Date:	5/14/2020
Impact:	\$0

Research Analysis

SB 1947 creates the COVID19 Product Protection Act. The measure establishes immunity from civil liability from actions resulting in a personal injury, death or property damage caused by a product provided by a person or entity that designs, manufactures, labels, sells, distributes, or donates a qualified product during and in response to the COVID-19 public health emergency that is utilized by a government entity, health care facility, health care provider, first responder, or essential business. A qualified product includes personal protection equipment, medical devices, or supplies used to treat COVID-19 including products that are used or modified for an unapproved use to treat COVID-19 or prevent the spread of COVID-19. Entities that utilize the provided products are also exempted from any civil liability that may emerge out of an injury or death related to the use of such products. The provisions of the measure also apply to persons or entities that do not manufacture or design such products in the normal course of business. This immunity shall not apply under certain circumstances. The provisions of the measure shall apply to any claim arising on or after the emergency declared by the Governor of Oklahoma related to COVID-19 by Executive Order 2020-07 on March 15, 2020.
